

This form must be completed and uploaded to your self-service account to meet your financial condition of admission, along with any official notification of awards mentioned. Please read this form, and section 3.7 of the booklet 'Your Offer and its Conditions' very carefully before signing it. Under no circumstances should you sign this form if you are in any doubt whatsoever about whether you have sufficient funds for your fees and living costs (e.g. costs of room rent, utilities, food, clothing, research-related costs, books, transport, entertainment, etc.).

If you are fully funded by the University's internal funders, you do not need to complete the Financial Undertaking Form. You should still upload an official notification of the award to your Self-Service Portal, if your funders have not done so on your behalf.

**University composition fees:**

This is the fee levied for the teaching, supervision, student support and facilities you will receive and have access to from the University and your College. You should ensure that you have available, in advance, adequate financial provision for the University Composition Fee for the whole of the duration of your course.

**Maintenance rates and additional costs:**

The maintenance figure quoted in 'tracking your finances' in your Self-Service is an estimate of your annual basic living expenses and personal costs, including accommodation, food, books and travel (full-time students only). The figure quoted should be regarded as the absolute minimum you will require. If you have been made an offer to study for a PhD, and your course takes you longer than 3 years, the University cannot assist you with funding in your 'writing up' year, and you may be removed from the register if you are unable to fund yourself during this period. You are strongly advised to allow for this possibility.

Some courses also require additional costs for consumables, field work or other research costs which you will need to make provision for as these will be in addition to the above basic estimated living costs. Please check with the department for the level of these additional costs.

**Currency exchange rates:**

If your capital/funds are not in GBP (£), you should allow for fluctuations in currency exchange rates which could affect your future ability to pay your fees and cover your living expenses. You should consider converting any non-GBP (£) capital/funds into GBP (£) at the beginning of your course, to protect it against any subsequent drop in value. Please note, if you experience financial difficulties due to fluctuations in currency exchange, the University or Colleges will not undertake this financial support/loss.

**Supplementing your income:**

The University has strict limits on students undertaking paid work whilst studying full-time, and you must not expect to provide additional income in this way. Further details on the working restrictions can be found on our [website](#).

**Student visa application:**

If you need to apply for a Student visa to study in the UK, the financial evidence to support your application will need to fulfil the specific requirements outlined in the student visa policy. This financial undertaking form cannot be used for this purpose. Visit the [International student webpage](#) for further guidance and if you have any questions about these requirements, please email the International Student Office at [international.students@admin.cam.ac.uk](mailto:international.students@admin.cam.ac.uk).
